The Fast Spinning, Fast Winning New Table Game

Rules Of The Game

Spin N Win is played with two tops, or "Spinners". The dealer spins one and the player spins the other.

Start off by placing as many single bets or combo bets as you wish.
You may mix or match bets.

When all bets are placed, the dealer and player will spin both tops.
When the tops fall, the dealer pays out winnings according to the colors that are facing up. It's that simple!

Single bets pay when one or both tops land on a specific color or when one or two Jokers are facing up.

Combo bets pay when a specific combination of colors lands face up.

If one Joker lands face up, it is **WILD**, and can be substituted for any other color.

When both Jokers land face up,
Every bet placed wins!!
